## About KOCSEA

The Korean Computer Scientists and Engineers Association in America (KOCSEA), founded in 1983, is a non-profit organization of Korean and Korean American computer scientists and engineers in North America. The basic goal of KOCSEA is to "promote communication, information exchange and cooperation among its members and to provide opportunities for them to make contributions to computer-related fields in Korea and U.S." Currently KOCSEA has about 500 members in the academia and in the industry at various stages in their career, from undergraduate and graduate students, to young professionals and assistant professors, to senior executives and professors.

## Member Benefits

As a KOCSEA member, you will be provided with (1) up-to-date information about new developments and opportunities in the field, and (2) access to a strong network of established and emerging players in computer science and engineering.

Examples of the above include timely announcements of career opportunities, and invitation to various events organized by KOCSEA.

**Note:** Membership is FREE!
