9th KOCSEA Technical Workshop

The two day event from October 25th to 26th, 2008 included two keynote speeches by Prof. Sang Hyuk Son (Univ. of Virginia) and Prof. Ashok Agrawala (Univ. of Maryland, College Park), five technical sessions, a special invited talk session on funding opportunities and research skills, and an award ceremony. More than sixty researchers, both from the academia and the industry, participated in the event, including five non-Korean speakers. In addition to the research talks, we discussed potential approaches to promote cooperation among researchers in different regions and venues for information exchange. The symposium was covered in the media (Washington D.C. JoongAng Ilbo) as a significant event for Korean computer scientists. The event was co-organized by KOCSEA and KUSCO (Korea US Science Cooperation Center, Inc.), with generous support from KUSCO, KT, Samsung, and KSEA (Korean Scientists and Engineers Association).

- General Chair: Jihie Kim (Univ. of Southern California)
- Program Chair: Byung Kyu Choi (Michigan Tech Univ.)

KOCSEA
Korean Computer Scientists and Engineers Association in America

About KOCSEA

The Korean Computer Scientists and Engineers Association in America (KOCSEA), founded in 1983, is a non-profit organization of Korean and Korean American computer scientists and engineers in North America. The basic goal of KOCSEA is to "*promote communication, information exchange and cooperation among its members and to provide opportunities for them to make contributions to computer-related fields in Korea and U.S.*" Currently KOCSEA has about 500 members in the academia and in the industry at various stages in their career, from undergraduate and graduate students, to young professionals and assistant professors, to senior executives and professors.

Member Benefits

As a KOCSEA member, you will be provided with (1) up-to-date information about new developments and opportunities in the field, and (2) access to a strong network of established and emerging players in computer science and engineering.

Examples of the above include timely announcements of career opportunities, and invitation to various events organized by KOCSEA.

Note: *Membership is FREE!*
